

# LEARN THE SIGNS FOR AUTISM SPECTRUM DISORDER

## Training for Early Childhood Education Providers

The UCONN Center for Excellence in Developmental Disabilities Education, Research and Service (UCEDD) is offering learning opportunities for Early Childhood providers to “Learn the Signs” and “Act Early”. This training aims at improving early identification of children with autism and other developmental disabilities so children and families can get the services and supports they need.

Training includes:

- Developmental milestones for infants, toddlers, and preschoolers
  - Early warning signs
  - Ways to take action if there are concerns
  - Resources for childcare providers, clinicians and parents

For more information or schedule a training - please contact:
