

# Enhanced Child Find Through Newborn Hearing Screening

## A Parent's Guide: Newborn Hearing Screening

This 18 minute videotape is an educational resource to expedite the identification of hearing loss in newborns. Through a special blend of interviews, this videotape helps to promote a better understanding of early communication development, and empowers parents with practical information about the hearing screening and follow up process.

| Quantity |                                   | Unit Price | Subtotal |
|----------|-----------------------------------|------------|----------|
| _____    | VHS in English (closed captioned) | \$20.00    | _____    |
